**Subject:** Continuing....ignoring our truths.

Sammy,

The crooks are going down.

Let me explain a little further.

I understand from my French-Canadian wife who I have been with for some 14 or so years, married some 5 odd, that you were very friendly yesterday at the framing store to the point of saying to Marie Dion Gevisser, "say hi to Gary", although you may have in fact used more friendlier terminology in taking both MDG and me for "fools".

**Proverbs – It is better to keep quiet and let people think you to be a fool than to speak out and remove all doubt.**

I first of all thank you and of course G-d/God for working through the emotionless deep vacuum of space between your ears causing you to speak out and remind me via again MDG to add you to the "\$ hit list" [sic] on [www.just3ants.com](http://www.just3ants.com)

As best I can tell the third to last time I heard from you was an email communiqué I received on March 17<sup>th</sup> 2005, your words,

Your friends are close to you. **Keep them that way.**

That same day I responded copying a whole bunch of people and organizations like the FBI, Mossad and Israeli Military Intelligence, beginning by once again reciting this awesome saying from Proverbs followed immediately, "With friends like you who needs enemies?"

Again as best I recall, the second to last time I heard from you was another email on October 4<sup>th</sup> 2005, reading:

"hope you will have a happier year gary  
all the information you are posting regarding cathy greg or me is wrog you making yourself look less then who you are in court and in public grow up move on" [sic].

I threw in a "sic" at the end in accordance with generally accepted English grammatical principles to denote your spelling error when typing "wrog" when it should have been spelled "wrong".

You can access that email and the second part of my response by clicking [HERE](#) and then clicking on the hyperlink above the word "continuing" at the top of the page taking you to the first part, since for "sum" [sic] reason I couldn't get it all on one page.

You were not in court when MDG and I confronted both Greg and your even closer buddy Ms. Cathy "[rat face](#)" Clark, the "tenant from hell" whose other "claim to fame" besides for being so friendly with you was that she had an uncle who was a senior member of the CIA.

Not to mention how terrorized MDG felt when the drunk "Rat Face" once came rushing out of her car towards MDG in an effort to intimidate MDG who like me was getting fed up and tired of Rat Face's late night drunkenness plus the fact that she was burning candles in her drunken stupor all within the illegal dwelling located at 357 Parish.

In the end the judge ruled in favor of Greedy Greg who lied through his teeth because he couldn't get rid of Rat Face as quickly as we wanted because she like you had the "goods" on him, another of the many drug dealers in this ritzy neighborhood.

And while the judge wasn't the smartest person in the world he also knew that he couldn't force Greedy Greg to get rid of Rat Face and besides he concluded correctly that MDG and I could afford a whole lot better residence perched atop the bluffs of Del Mar.

Please remember when passing by next time

to smile for the camera.

And you, someone who doesn't have a pot to pee in, would know that "proof is a function of evidence and the better the evidence the better the proof", although all that Greedy big mouth Greg had to say about you leaving your former residence while not paying the last month's rent, owing the landlords some US\$800, was that your Korean wife was "loaded"; possibly something to do with an insurance policy she took out on her former deceased husband, please let know.

Let me also remind you in order that you remember to remind others caught up in your schmoozing that you were Del Mars druggy of druggies who would bring prostitutes over from Tijuana Mexico and as part of the deal that of course included them partaking in your drugs was to let them remain here in the US starting out their trade across from your residence over at the Del Mar Plaza.

And remember your one single coke addict neighbor who was also the foster care parent who you knew was having sex with the 14 year old foster care girl entrusted to his custody, was quite your accomplice in this one of your many seedy operations.

According to MDG you find the time in your very busy schedule to inform her that you had sold your previous framing business where your one nephew, Ian Lerner was your financial partner. Please share with me their email address so that I don't have to bother driving over there.

BTW how are The Twins doing? Click [HERE](#).

And you remember Vicky Schiff, [click [HERE](#)] co-managing director of Wetherly Capital Group as well as my one American programmer Alan L. Tucker whose mother you failed to schtoop but thought it wise to share with Merle "[toilet](#)" Tucker parts of a phone conversation you once had with my highly shrewd and most secretive mother Zena who of course had no problem in figuring you out given how I had given Zena who entrusted me well before I was a teenager with the family's "crown jewels", all the necessary "heads up".

**Marie Dion Gevisser**

I currently don't have the email address of your current employer but be sure to share this communiqué with them.

Perhaps when Marie drops by next to pick up her frames I will bring along a handful of copies of this communiqué as well as any others you might suggest.

Also, if you have the time perhaps you and the rest of your "friends" would like to comment on just3ants.com beginning with that one ingenious Israeli Military Intelligence report.

Ps – Could you send me your latest photo that provides a CLEAR view of your bald patch and be sure to let me know what type of shoe polish you are using these days to cover up.
